- Attendees from earlier courses

CEU Creations! I participated in their two day prep course last month, which was combined with The One Test Prep with Jason Adkins. I learned my learning style, learned how to break down the questions and had fun while participating. The prep course included fun ways to learn recall questions, access to The One Test Prep Course modules and twice weekly study groups. It is well worth the investment and you will be glad you did. And, in case you are wondering. Yes, I'm a LCSW!
-Tristesse Casimier, LCSW

I actually attended a two day workshop hosted by The One Test Prep and Anne Bistritz McSweeney's CEU Creations. The workshop included access to the program and 8 group study sessions. This program was the turning point for my success to pass the exam. The study group was encouraging, informative, and very effective. I was extremely anxious about my upcoming test and the group pushed me by providing invaluable tips and support. This program is truly amazing and I would recommend it to any and every clinician preparing for Licensure.
