My Client's Medicare

Where Do I Fit In?

Healthcare providers are an important cornerstone of our community. Not only do they provide life-saving care every minute of every day, but they also spend considerable time providing preventative care and public health education. Even though Medicare has been around for decades, the constant evolution of the program and healthcare provision in general leaves many providers just as confused as our clients about Medicare programs and their services. In this educational session, expert presenters from Affordable Medicare Solutions will provide an in-depth summary of the different Medicare plans, the benefits afforded to clients eligible for both Medicare and Medicaid, and expert guidance and instructions on the complex application process for the Low-Income Subsidy. You won't want to miss this opportunity to ask the questions you've always wanted to ask the experts! Attendees will gain the insight essential to help clients make informed healthcare decisions as they navigate a complex healthcare system. Join us for the opportunity to expand
