## An Overview of COVID-19:

### What Helping Professionals Need to Know

According to the CDC, currently in the US (as of 3/16/20), there are 49 states reporting COVID-19 cases with over 3,400 cases reported nationwide. COVID-19 is a respiratory virus caused by a new coronavirus that was originally detected in Wuhan, China and has now spread to more than 100 locations internationally. On 3/11/20, COVID-19 was classified as a pandemic and on 3/13/20, it was declared a national emergency in the US. The government and CDC have developed extensive guidelines around travel restrictions, social distancing, refraining from large group gatherings and other specifications. Obviously, this is a scary, overwhelming and unprecedented times for most people. In this unique training, we are attempting to present the most factual and up-to-date information around COVID-19 – providing an overview on items helping professionals need to know. Jill Morgan, , Emory RN who treated the Ebola patients at Emory will be sharing useful information around the background of COVID-19, impact of social distancing, source control, PPE and more. Delivered through an interactive format – we are also hoping to engage the attendees, share ideas and best practices as we all begin to deal with this “new normal”.

#### Agenda:

2:45 am – 3:00 pm	Log-In and Welcome
3:00 pm - 4:00 pm	Presentation

#### By attending our workshop, you will be able to:

1. Identify the background of COVID-19 and impact of social distancing on work
2. Define Source Control
3. Understand critical information around messaging, PPE and self-care

**SOCIAL WORKERS:** CEU Creations, #1239, is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved as ACE providers. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit. CEU Creations maintains responsibility for this course. ACE provider approval period: [11/22/18-11/22/21]. Social workers completing this course receive 1 Clinical continuing education credits.

*In order to receive credit, you must attend the entire live webinar and complete an evaluation. Certificates will be electronically provided within 5 business days. Target audience: Social workers, case managers, discharge planners, nurses and other healthcare professionals – beginning to intermediate level of learning.*

*The GA Board governing social work CE's accepts ACE Programs.*

**NURSES:** 1 Contact Hour - CEU Creations is an approved provider of nursing CEs through the California Board of Registered Nursing. Provider number: CEP16563. All states retain their own licensing authority through their own boards. Please make sure to check with your own state board to ensure transferability of the CE credits. Please make sure to check with your own state board to ensure transferability of the CE credits

**LPCs:** 1 NBCC hours - CEU Creations has been approved by NBCC as an Approved Continuing Education Provider, ACEP No. 6941. Programs that do not qualify for NBCC credit are clearly identified. CEU Creations is solely responsible for all aspects of the programs.

**For more information on the course, accommodations for disability, grievances, or any other concerns, please contact CEU Creations via Anne McSweeney at [info@ceucorationsinc.com](mailto:info@ceucorationsinc.com) or 770-880-9873.**

# Speaker Information:

## Jill Morgan, RN, BSN

Jill Morgan, RN, BSN, an experienced critical care nurse at Emory University Hospital and a member of "Team Ebola" — the care team for Emory's four patients diagnosed with Ebola virus disease — has been named a top 10 nurse in the [2015 AJC's Celebrating Nurses Nursing Excellence Awards](#).

A nurse for 29 years, Morgan is a bedside nurse in the medical Intensive Care Unit at Emory University Hospital, caring daily for some of the hospital's sickest patients. "There is strength and confidence in Jill when she is standing at the bedside," says Pam Cosper, MSN, nursing specialty director for critical care at Emory University Hospital, who nominated Morgan for the award. "You know that all is going to be okay when Jill is there. And that is a gift."

Besides her job in the ICU, Morgan has also been a part of Emory's Serious Communicable Disease Unit (SCDU) for more than 10 years. The unit has been in existence since 2002, developed in partnership with the Centers for Disease Control and Prevention (CDC) to care for CDC employees who became ill while on assignment overseas. Morgan and SCDU team members train and drill regularly to receive patients with unusual and serious infectious diseases, like Ebola virus disease.
