# Integrating Palliative Care into the Healthcare System

## Biggest Successes and Biggest Barriers

**As we seek to increase successful patient outcomes, the need to integrate palliative care into our health system has become an increasingly more important.** This course, will take attendees on a palliative care journey, and the first stop will highlight the current state of the healthcare system and the state of health for many Americans. This critical stop will demonstrate the need for comprehensive integration of palliative care for Americans suffering with serious chronic illness, as well as those in need end of life care. Next, our presenter, Samantha Spell, APRN, MSN, NP-C, will share real-life case studies of patients that can benefit from palliative care. Later, we'll continue our journey with information on the limitations of hospice as well as a look into the integrated palliative care model. Finally, the presentation will discuss innovative programs and the future of palliative care. Don't miss it!
