Are you a helping professional looking to enhance your skills and better assist your clients? This training on home modifications and other resources is designed to empower you to make a significant difference in the lives of those you serve. Explore practical solutions for improving safety, enhancing independence, and reducing caregiver burdens through home modifications, such as structural changes and adaptive equipment. We'll address the challenges and cost-effective options for making homes more accessible and comfortable. Additionally, you'll learn creative strategies for helping clients who require 24/7 supervision and discover essential resources to overcome transportation barriers, ensuring your clients receive the best care. Don't miss this opportunity to expand your knowledge and impact the lives of your clients.

BY THE END OF THE SESSION, THE PARTICIPANT WILL BE ABLE TO:

- Name at least three novel home modifications that improve safety & independence
- Identify at least three area alternative transportation options and tips for maximizing their use
- Discover multiple ways to help families create a plan for providing 24/7 supervision

Course Interaction and Technical Requirements: This live webinar is fully interactive. Attendees may ask and answer questions throughout the presentation and participate in instructor-led discussions. A computer or mobile device is required. Zoom account is not required. You will receive an email approximately 24 hours prior to the start of the event with a link to the webinar.

In order to receive credit, you must log in on time, attend the entire presentation, and complete an evaluation within 30 minutes of the conclusion of the event. Attendance log and Zoom analytics will be reviewed by the CE Director. Certificates will be provided in approximately 5 business days.

Target audience: Social workers, case managers, counselors, discharge planners, nurses and other healthcare professionals.
